| PROFILE

Experienced software developer with over three years of hands-on work in building mobile, web, and desktop applications using Flutter. Skilled at creating CE-certified medical apps, as well as gallery, event, and donation tracking apps. Comfortable working across different platforms and focusing on making easy-to-use, reliable applications. Experienced with both AWS and Firebase for cloud storage, backups, authentication, and analytics. Known for writing clean, well-organized code and always eager to learn new cloud technology tools to help make apps more scalable and modern. Currently growing expertise in cloud-based development to deliver robust solutions for today's technology needs.

| SKILLS

- Flutter • Dart • AWS (S3, Lambda, EC2) • Firebase (Auth, Storage, Realtime DB, Analytics)
 - GitHub • Linux • Shell • Xcode • C (Basics).
-

| WORK EXPERIENCE

Borm Bruckmeier Verlag GmbH – Software Developer - (Aug 2022 – Present)

- Developed and maintained CE-certified medical apps for iOS & Android using Flutter and clean architecture.
- Converted mobile apps into Flutter Web applications, enhancing platform reach and usability.
- Actively working on porting apps to desktop environments including Windows, macOS, and Linux using Flutter's multi-platform support.
- Focused on writing clean, maintainable, and scalable code, adhering to medical compliance standards.
- Currently building knowledge in cloud computing to transition into cloud-native development and infrastructure roles.
- Improved CI/CD using GitHub Actions and shell scripts.

Growise Infotech Pvt. Ltd. – Flutter Development Intern - (Mar 2022 – Jun 2022)

- Completed hands-on internship focused on building cross-platform apps using Flutter.
 - Gained foundational experience in UI/UX implementation, state management, and team collaboration in an agile environment.
 - Contributed to real-time app features and refined understanding of the full mobile development lifecycle.
-

| PROJECTS

Medical Guidelines Apps

- Developed a suite of mobile and web apps in collaboration with leading European and American medical societies, enabling easy access to up-to-date clinical guidelines for healthcare professionals.
- Built using Flutter for iOS, Android, and Web, ensuring consistent cross-platform performance and user experience.
- Integrated with Firebase Realtime Database, Storage, Authentication, and Analytics to manage content, users, and app engagement.
- Implemented scalable backend solutions using Firebase and AWS services, supporting dynamic content delivery and user growth.
- Automated build, test, and deployment pipelines using GitHub Actions and custom Shell scripts, improving delivery speed and CI/CD efficiency.

Event & Donation Tracking App

- Designed and implemented a cross-platform app using Flutter, allowing users to create and manage events, view associated expenses, and donate to specific events.
- Built intuitive UI/UX for seamless user interaction across mobile platforms.
- Integrated form validation, custom input controls, and real-time state updates for event and donation tracking.

Gallery App (Flutter • AWS Lambda • S3)

- Built a user-friendly gallery app with clean architecture in Flutter, leveraging AWS for reliable media backup.
- Implemented automatic image/video backup to S3 via serverless workflows (Lambda + pre-signed URLs).
- Designed a modular, testable codebase (Clean Architecture) with clear separation of UI, domain, and data layers.
- Focused on performance, resiliency (retry/resume uploads), and a smooth

cross-platform UX.

| EDUCATION

- Master of Computer Science (2022) – Savitribai Phule Pune University
Indira College of Arts,Commerce and Science,Pune
 - Bachelor of Computer Science (2020) – Savitribai Phule Pune University
Tikaram Jagannath College,Pune.
